RE: Your Public Records Request of January 9, 2018

Dear Christopher Horner:

I write regarding your public records request for the following:

Copies of all emails on the University's email system (including attachments) that were received by, sent to or are possessed by Philip W. (Phil) Mote, of the College of Earth, Ocean, and Atmospheric Sciences, Oregon Climate Change Institute, which are also:

- a) dated between March 1, 2016 and April 30, 2016, inclusive, which are
- b) 1) to or from Shaun Goho, or 2) which use any of the terms, anywhere in the correspondence be it the to, from, cc, bcc, Subject fields or body of the email: A) Harvard, B) Pawa, C) CIEL, D) Frumhoff, E) UCS, F) Eubanks, and/or G) CIEL (these terms are not case sensitive).

Pursuant to the Oregon Public Records Law, OSU may charge its costs for responding to public records requests. The estimated cost for providing the materials you request is \$428.41. This includes the hourly rate of the person(s) gathering records that may be responsive to your request. The documents will be transmitted electronically, so there will be no photocopy charge. OSU understands that Competitive Enterprise Institute is an organization operating in the public interest and so OSU is authorizing a 25% reduction in fees. That reduction brings the estimated cost to \$321.31.

Upon receipt of your check we will resume processing your request. Based upon information currently available, we anticipate filling the request will take four weeks from the date your payment is received.

Please make your check payable to OSU and send it to:

Public Records
638 Kerr Administration Building
Oregon State University
Corvallis, OR 97331-2128

If we discover that our costs are less than estimated, we will refund the difference to you.
Likewise, if we discover our costs are more than estimated, we will bill you for the difference.

Sincerely,

Beth Giddens
Public Records Officer
